David Salman Tribute Garden

'Fall Fiesta' hummingbird mint
One of the many cultivars of hummingbird mints that
brighten the xeric garden in summer.

'Burgundy Seduction' salvia
A hybrid with 'Raspberry Delight' as a parent, it
features darker pink flowers and keeps the sweetly
scented leaves.

'Perfect Pink' Santa Fe phlox
This low growing beauty flowers spring to fall.

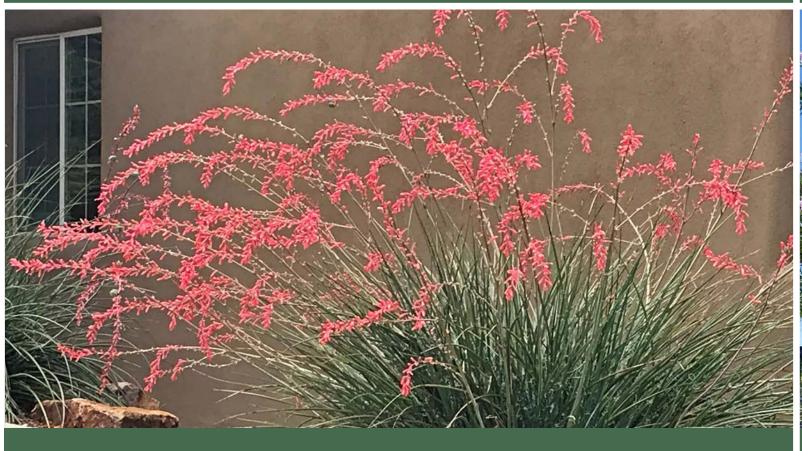

FLOWERKISSER® Citrus Surprise penstemon One of Salman's favorite penstemons, this one's flower color surprises and delights!

'Zig Zag' grama grass
Salman found this compact, long-lived hybrid grama grass growing in Santa Fe!

KANNAH CREEK® sulphur buckwheat
Grown from seed collected in western Colorado
Salman described it: "huge yellow umbels that age to
various shades of bronzy orange in the late summer/
early fall"

FLOWERKISSER® Weeping Pink hesperaloe
This cultivar features fine foliage and non-stop bloom.
It sets few if any seeds.

FLOWERKISSER™ Everpink desert willow
This seedless, drought-tolerant desert willow attracts
pollinators with its beautiful pink flowers

David Salman explored the Southwest and similar regions across the world to find beautiful plants for gardeners. In his own garden he selected hardy coldand drought-tolerant plants to introduce to the nursery trade through High Country Gardens and Waterwise Gardening. These are just a few of the plants he selected and photographed that are planted in the David Salman Memorial Garden.

Thank you to all the donors and the Santa Fe Garden Club

'Wee One' English lavendar
Salman introduced several cultivars of lavender,
shown here in a rock garden with cacti and native
blackfoot daisies.

ORANGE CARPET® hummingbird trumpet A long-blooming groundcover that attracts hummingbirds.

'Blue Flame' Mojave sage
Salman introduced this species to the nursery trade
and was working on several selections.
